Nervous Periodical Headaches

This trouble commonly called "sick headache," is said to be due to the retention of urea in the system. Often it is stated that a poor condition of the blood is a cause of these headaches, or that it is a nervous condition; and in certain cases, no doubt this is true.

Where treatment is demanded, it is more for the pain than anything else, and Dr. A. F. Schellhammer of Louisville, has found anti-lamnia tablets to give prompt and satisfactory relief. "Best should be insisted upon," he says, "and the patient should go to bed, darken the room, and all the attendant not finally should be as quiet as possible. An emetic will sometimes shorten the attack. The bowels should be kept open with 'Acidol,' a hot bath and a thorough rub-down with a coarse towel, often give grateful relief. Two anti-lamnia tablets, when the first signs appear, will usually prevent the attack. During an attack, one tablet every hour or two will shorten the attack and relieve the usual nausea and vomiting." These tablets may be obtained at all druggists. Ask for A-K Tablets. They are also indicated for nervous headaches, neuralgia and all pains.

CLAYTON PIONEER IS PTOMAIN VICTIM

(SPECIAL CORRESPONDENCE TO MORNING JOURNAL) Clayton, N. M., June 5.—John Brophy, an old-timer of Clayton and Union county, passed away yesterday. The immediate cause of his death was ptomaine poisoning from eating sardines. Mr. Brophy had been sheriff of Union county for many years and had served fearlessly in early times here when cowboys ran things and when the town was frequently shot up.

Only a short time since Mr. Brophy's son, Frank, was accidentally shot and killed while duck hunting, and this tragedy had no doubt much to do in hastening Mr. Brophy's death.

Santa Fe Rates Changed.

Santa Fe, June 5.—Interstate rates on the Santa Fe and Colorado Southern railroad lines in New Mexico are readjusted on a mileage basis by order of the state corporation commission, issued to become effective August 1. The readjustment shows a decrease in the rates for sixty-mile hauls and over, with an increase on short hauls. Present rates are declared to be "inconsistent, unreasonable and discriminatory." No other railroads are affected by the order.

Artist Disappears.

Santa Fe, June 5.—A young Italian artist who was being received in the best of local homes, has suddenly taken to his departure. His leave-taking was synchronous with the receipt by local Italians of a printed circular describing a forger wanted by the United States government and also by the Colorado authorities. The description of the young man sought by the government tallied with that of the handsome young artist who originally came to Santa Fe from Albuquerque.

CANDIDATES' MANAGERS ON THEIR JOBS IN CHICAGO

JOSEPH B. KEALING
MANAGER FOR FAIRBANKS

FRANK H. HITCHCOCK
MANAGER FOR HUGHES

GEORGE VON L. MEYER (below)
MANAGER FOR ROOSEVELT

JOHN W. DWIGHT
MANAGER FOR ROOT

Here you see George von L. Meyer of Boston, former secretary of the navy, at his desk in Chicago managing the Roosevelt campaign before the republican national committee. The colonel has another manager.

George W. Perkins, but he operates only before the progressive convention. John W. Dwight, former congressman from New York, is the custodian of the campaign of Elihu Root, and Mr. Dwight is a very smooth politician. There is also Joseph B. Kealing of Indiana, who has the campaign of Charles Warren Fairbanks in charge. Frank H. Hitchcock of New York is believed to have the honor of Justice Charles E. Hughes concealed about his person.

While it has been stated authoritatively that the reply will make clear the administration's determination not to withdraw the expedition until the Carranza troops have shown both the intention and ability to prevent bandit raids, there are many other questions raised by the note which must be considered.

General Carranza's demand that the United States declare its intention "toward Mexico in the interest of all Latin-America," has aroused considerable discussion in diplomatic circles. Some diplomats do not hesitate to attribute it to the activity of foreign agents at Mexico City, working to offset President Wilson's efforts toward a closer pan-American relationship. They argue that the fact that American marines have been employed recently in Nicaragua, Haiti and the Dominican Republic, and that American troops now are in Mexico, may have been used by such agents to discount the president's declarations for pan-American amity. Some even assert that a campaign is on foot to prevent the United States from obtaining permanently the trade with South and Central America and Mexico formerly held in Europe.

State department officials refuse to discuss that possibility, and the reply President Wilson will make to the demand, may be ignored entirely as other portions of the note, such as the suggestion that American domestic politics is behind the president's action, probably will be.

Notes of Interest From State Museum

(SPECIAL CORRESPONDENCE TO MORNING JOURNAL) Santa Fe, June 5.—The public schools of Chicago have purchased the painting "Town of Taos," by Victor Higgins, first exhibited in the Old Palace at Santa Fe. The Chicago schools devote a certain amount each year for the purchase of works of art. In addition, the city of Chicago appropriates \$4,500 from municipal funds annually for the purchase of paintings. Of the twenty-five paintings purchased by the city this year, one is by Walter Ufer, at present in Santa Fe. That painting, too, was first exhibited in the museum, and is a picture of "Yunque," the first white settlement in the state.

No. 2 of the monographs issued by Yale university, describing its art, archaeological, literary and scientific collections, was received today by the museum library. This number is devoted to the description of the William A. Speck collection of Goethiana. W. D. Longyear, 2555 Wilshire boulevard, Los Angeles, and E. J. Longyear, of Hollywood, Calif., and Minneapolis, Minn., today became members of the Archaeological society. The latter was a neighbor of the secretary of the museum, on Harvard way, Hollywood, but has his business interests and summer home in Minneapolis, spending the winter with his family in Hollywood. The Longyears are on their way to Minneapolis from Los Angeles in their two automobiles and carrying their equipment on an electric truck. They found the roads good, except between Bagdad and Needles, Cal.

The following registered at the museum: E. S. Jones, Jackson, Mich.; Arthur Bergeron, Excelsior, Mich.; Jennie Howell, Venus, N. M.; R. L. Phillips, Roswell, N. M.; Mr. and Mrs. E. J. Longyear, Miss Margaret Longyear, Richard P. Longyear, E. J. Longyear, Jr., Minneapolis, Minn.; Mr. and Mrs. W. D. NEWS NOTES from MOVIELAND

The Annette Kellerman picture, which cost \$1,000,000 and took six months to produce, is going to be released before many weeks. The Fox publicity man speaks of the picture in the following eloquent words:

The effect that this picture will create in your mind will be a multiplication of the wonderful pictures you would rather in an evening of reading the more imaginative scenes and descriptions from the Moorish and Turkish stories of Pierre Loti, Burton's Arabian Nights and the atmospheric beauties of the master word painter of a newer generation—Robert Hichens, author of "The Garden of Allah," "Barbary Sheep," "The Call of the Blood" and many other equally tense descriptive novels.

Influenced by none of these stories directly, Herbert Brenon, with his remarkable capacity for depicting the unusual and the beautiful, nevertheless has created in his own mind a story embracing the more entrancing and memorable beauties of those that have been enumerated.

DO YOU KNOW THAT— Alice Brady was tutored for a social life—and went on the stage against her father's wishes.

Thomas A. Edison is working on a new and more satisfactory camera?

Mary Miles Minter has been 14 years old for five years? And that her real name is Juliet Shelby and she was a stage player at the age of 12?

Lorna Volare is the youngest actress in the world—age 27?

John Ince made a picture, "The Cowardly Way," with 266 double exposures?

Anna Pennington, Ziegfeld dancer, soon to be a Famous Player star, says she knows more about Dickens than about Broadway, and that her favorite novel is "David Copperfield." However, it wasn't art that induced her to act for the movies. When asked what led her to take to this new career she said, "I needed a new car."

WILSON AND AIDS TO DISCUSS NOTE TO FIRST CHIEF

Many Questions Besides Withdrawal of American Troops From Mexican Soil Will Be Considered.

(BY MORNING JOURNAL SPECIAL LEADER WIRE) Washington, June 5.—President Wilson and his cabinet are expected to discuss at tomorrow's meeting the reply to be sent to General Carranza's note demanding withdrawal of American troops from Mexico.

While it has been stated authoritatively that the reply will make clear the administration's determination not to withdraw the expedition until the Carranza troops have shown both the intention and ability to prevent bandit raids, there are many other questions raised by the note which must be considered.

ATTEMPTED JAIL DELIVERY READS LIKE SCENARIO

(SPECIAL CORRESPONDENCE TO MORNING JOURNAL) Clayton, N. M., June 5.—Through the bravery of Mrs. Crumley, wife of Sheriff Crumley, a jail delivery was frustrated. Sheriff Crumley was in the jail getting ready to fasten in the prisoners for the night, when the latter made a run for the great outdoors.

Mrs. Crumley drew a rifle and drove the entire herd back into the jail, except one desperate criminal who was waiting for a penitentiary sentence. This one made a break for liberty. Sheriff Crumley getting into action by this time shot at the fugitive, who fell, but immediately got up and fled into the night.

DON'T LET NERVOUSNESS RUIN YOUR HAPPINESS

VICTIMS OF NERVE SICKNESS CADOMENE TABLETS

The Great Nerve Medicine

Nervousness deadens the brain and weakens the body. Nature needs real and harmless aid to overcome it.

Nature does her best to fight the evil effects of overwork, worry, dissipation and excesses on the nervous system. She fights to the last atom of her strength but usually she has to have assistance to overcome the sluggish brain, weakened body, the sick headache, sleeplessness, flabby and degenerated muscles, that tired all in feeling, inability to act naturally, a feeling of fear, with pains in back, head and groins, general weakness, inefficiency in functioning and complete failure in realization of hopes.

For this condition Cadomene Tablets offer the safest, most prompt and reliable aid.

Cadomene Tablets are vitally necessary for rebuilding the cells of body, brain and nerve tissues. Men and women, too, who are nervous, have starved nerves, and starved devitalized nerves need the elements of Cadomene Tablets to feed them. Cadomene Tablets are a combination that is easily picked up by the digestive system and most quickly appropriated. The nerve and tissue-building properties go quickly into the circulation and reach the spot. Cadomene gets at the bottom of the weakness or trouble because it directly feeds the blood stream because it nourishes the nerve centers, because it does these things naturally and persistently and the sum total of such action must, cannot fail to produce a general uplift of body and mind, a thorough strengthening of the body's resistive force, a regaining of vitality and endurance—in a word: Renewed and complete efficiency of body and mind. Obtain in sealed tubes with full directions from all live druggists.
